Subject Index

African honey
In vitro antibacterial activity of Omani and African honey, 1 (OA)
Agar
ABC chromogenic agar: a cost-effective alternative to standard enteric media for *Salmonella* spp. isolation from routine stool samples, 187 (OA)
Agglutination tests
Streptococcus grouping latex kits: evaluation of five commercially available examples, 136 (OA)
Agilent 2100 bioanalyser
Gene expression study of *Saccharomyces cerevisiae* with the Agilent 2100 bioanalyser, 22 (OA)
Air-sampling, microbial
Survey of microbial air sampling in the NHS, 161 (BS)
Alleles
HLA A*02 allele and B-associated haplotype diversity in Indians, 109 (OA)
HLA-B27 allele diversity in Indians: impact of ethnic origin and the caste system, 223 (OA)
Angiotensin II
Effect of long-term irbesartan treatment on endothelium-dependent vasodilation in essential hypertensive patients, 191 (OA)
Antibodies
Use of *Helicobacter pylori*-specific antibodies in the evaluation of intestinal metaplasia and gastric dysplasia, 175 (OA)
Antimalarials
In vivo antimalarial activity of *Vernonia amygdalina*, 89 (OA)
Antiphospholipid syndrome
Enzyme-linked immunosorbent assay for ß2-glycoprotein I quantitation: the importance of variability in the plastic support, 165 (BS)
Atherosclerosis
Oxidised and native low-density lipoproteins induce the release of von Willebrand factor from human endothelial cells *in vitro*, 155 (OA)
Vitamin E prevents extensive lipid peroxidation in patients with hypertension, 5 (OA)

Bacterial infections
In vitro antibacterial activity of Omani and African honey, 1 (OA)
Bacterial typing techniques
Irish strains of *Neisseria meningitidis*: characterisation using multilocus sequence typing, 204 (OA)
Barrett's oesophagus
Is sybtyping of intestinal metaplasia in the upper gastrointestinal tract a worthwhile exercise? An evaluation of current mucin histochemical stains, 180 (OA)
Blood banks
HIV-1 p24 antigen testing in blood banks: results from Saudi Arabia, 102 (OA)
Blood coagulation
Bland-Altman difference plot, 131 (L)
Bloodborne pathogens
Pathogen inactivation of platelet concentrates and fresh frozen plasma, 227 (BE)

C-reactive protein
Effect of sample tube type and time to separation on *in vitro* levels of C-reactive protein, 164 (BS)
Campylobacter jejuni
Biochemical isolation and identification of DnaK and GroEL from urease-positive thermophilic campylobacters, 26 (BS)
Phenotypic diversity of campylobacter isolates from sporadic cases of human enteritis in Northern Ireland, 28 (BS)
CCR gene polymorphisms
CCR5 and CCR2 gene polymorphisms in hypertensive patients, 19 (OA)
CD4-positive T-lymphocytes
Change from dual- to single-platform reporting of CD4/CD8 values: experience from a small district general hospital laboratory, 92 (OA)
CD8-positive T-lymphocytes
Change from dual- to single-platform reporting of CD4/CD8 values: experience from a small district general hospital laboratory, 92 (OA)
Cell culture
Toxoplasma gondii from liquid nitrogen for continuous cell culture: methods to maximise efficient retrieval, 217 (OA)

Cholinesterases
Synthetic organic hard capsule colouring agents: *in vitro* effect on human true and pseudo-cholinesterases – corrigendum, 52
Chromogenic compounds
ABC chromogenic agar: a cost-effective alternative to standard enteric media for *Salmonella* spp. isolation from routine stool samples, 187 (OA)
Coeliac disease
Anti-transglutaminase antibodies and the serological diagnosis of coeliac disease, 14 (OA)
Coronary heart disease
Impaired nitric oxide production, brachial artery reactivity and fish oil in offspring of ischaemic heart disease patients, 144 (OA)
Cyclospora cayetanensis
Cyclospora cayetanensis infection: vegetables and water as possible vehicles for its transmission in Lagos, Nigeria, 113 (BS)
Cystic fibrosis
Low incidence of *Neisseria meningitidis* serogroups B and C in lower respiratory tract secretions in patients with cystic fibrosis, 233 (L)

Diabetes mellitus, type 2
Secondary sulphonylurea failure: what pathogenesis is responsible?, 9 (OA)
Dientamoeba fragilis
Detection of *Dientamoeba fragilis* by culture, 79 (OA)
Disc diffusion
Evaluation of the mastascanelite image analysis system for measuring zones of inhibition in disc diffusion susceptibility tests, 133 (OA)
DnaK heat shock protein
Biochemical isolation and identification of DnaK and GroEL from urease-positive thermophilic campylobacters, 26 (BS)

Electrophoresis, agar gel
Gene expression study of *Saccharomyces cerevisiae* with the Agilent 2100 bioanalyser, 22 (OA)
Electrophoresis, multilocus enzyme
Multilocus enzyme electrophoresis typing of clinical *Helicobacter pylori*, 30 (BS)
Endomysium
Anti-transglutaminase antibodies and the serological diagnosis of coeliac disease, 14 (OA)
Endothelial dysfunction
Effect of long-term irbesartan treatment on endothelium-dependent vasodilation in essential hypertensive patients, 191 (OA)
Endothelium
Oxidised and native low-density lipoproteins induce the release of von Willebrand factor from human endothelial cells *in vitro*, 155 (OA)
Enteritis
Phenotypic diversity of campylobacter isolates from sporadic cases of human enteritis in Northern Ireland, 28 (BS)
Erythrosine
Synthetic organic hard capsule colouring agents: *in vitro* effect on human true and pseudo-cholinesterases – corrigendum, 52

Ethnic groups
HLA A*02 allele and B-associated haplotype diversity in Indians, 109 (OA)
HLA-B27 allele diversity in Indians: impact of ethnic origin and the caste system, 223 (OA)
Prevalence of HLA-B27 among donors and recipients for renal and bone marrow transplantation in Mauritius, 221 (OA)

Factor V Leiden
Screening for thrombophilia: a laboratory perspective, 39 (RA)
Fish oils
Impaired nitric oxide production, brachial artery reactivity and fish oil in offspring of ischaemic heart disease patients, 144 (OA)
Folic acid
Reduced folate carrier: biochemistry and molecular biology of the normal and methotrexate-resistant cell, 117 (BE)
Founder effect
HLA A*02 allele and B-associated haplotype diversity in Indians, 109 (OA)

Gastritis
Use of *Helicobacter pylori*-specific antibodies in the evaluation of intestinal metaplasia and gastric dysplasia, 175 (OA)
Genomic DNA extraction
Extraction of genomic DNA from *Pseudomonas aeruginosa*: a comparison of three methods, 34 (BS)
glmM gene
Molecular typing of Nigerian *Helicobacter pylori* isolates by *glmM* restriction fragment length polymorphism, 170 (BS)
GroEL heat shock protein
Biochemical isolation and identification of DnaK and GroEL from urease-positive thermophilic campylobacters, 26 (BS)
Guanosine deaminase
Guanosine deaminase in human serum and tissue extracts – a reappraisal of the products, 197 (OA)

Haplotypes
HLA A*02 allele and B-associated haplotype diversity in Indians, 109 (OA)
Heat shock proteins
Biochemical isolation and identification of DnaK and GroEL from urease-positive thermophilic campylobacters, 26 (BS)
Helicobacter pylori
Molecular typing of Nigerian *Helicobacter pylori* isolates by *glmM* restriction fragment length polymorphism, 170 (BS)
Multilocus enzyme electrophoresis typing of clinical *Helicobacter pylori*, 30 (BS)
Use of *Helicobacter pylori*-specific antibodies in the evaluation of intestinal metaplasia and gastric dysplasia, 175 (OA)
HIV core protein p24
HIV-1 p24 antigen testing in blood banks: results from Saudi Arabia, 102 (OA)
HLA-A2 antigens
HLA A*02 allele and B-associated haplotype diversity in Indians, 109 (OA)

HLA-B antigens
HLA A*02 allele and B-associated haplotype diversity in Indians, 109 (OA)
HLA-B27 antigen
HLA-B27 allele diversity in Indians: impact of ethnic origin and the caste system, 223 (OA)
Prevalence of HLA-B27 among donors and recipients for renal and bone marrow transplantation in Mauritius, 221 (OA)
Honey antibacterial activity
In vitro antibacterial activity of Omani and African honey, 1 (OA)
Human immunodeficiency disease
Antigenaemia and antibody response to *Leishmania donovani* stage-specific antigens and rk39 antigen in human immunodeficiency virus-infected patients, 210 (OA)
Change from dual- to single-platform reporting of CD4/CD8 values: experience from a small district general hospital laboratory, 92 (OA)
HIV-1 p24 antigen testing in blood banks: results from Saudi Arabia, 102 (OA)
Sequence analysis of partial regions of the 5.8S rRNA internal transcribed region 2 and 28S rRNA of *Isospora belli*, 114 (BS)
Hypercholesterolaemia
Oxidised and native low-density lipoproteins induce the release of von Willebrand factor from human endothelial cells *in vitro*, 155 (OA)
Hyperparathyroidism
Hyperparathyroidism – pitfalls in management, 35 (BS)
Hypertension
CCR5 and CCR2 gene polymorphisms in hypertensive patients, 19 (OA)
Effect of long-term irbesartan treatment on endothelium-dependent vasodilation in essential hypertensive patients, 191 (OA)
Vitamin E prevents extensive lipid peroxidation in patients with hypertension, 5 (OA)
Hypertriglyceridaemia
Genetics of the lipoprotein lipase gene and hypertriglyceridaemia, 84 (OA)
Hypothyroidism, congenital
Congenital hypothyroidism in Saudi children, 37 (BS)

Image processing
Evaluation of the mastascanelite image analysis system for measuring zones of inhibition in disc diffusion susceptibility tests, 133 (OA)
Immunity
Strategies for detecting toxoplasma immunity, 105 (OA)
Impedance
Bland-Altman difference plot, 131 (L)
Infective discitis
Infective discitis due to *Staphylococcus lugdunensis* – a case of missed opportunity, 162
Insulin
Secondary sulphonylurea failure: what pathogenesis is responsible?, 9 (OA)
Intercellular adhesion molecule-1
CD54 and CD62L expression by lymphoid cells in acute lymphoblastic leukaemia in children, 149 (OA)
Irish epidemiology
Irish strains of *Neisseria meningitidis*: characterisation using multilocus sequence typing, 204 (OA)
Isospora belli
Sequence analysis of partial regions of the 5.8S rRNA internal transcribed region 2 and 28S rRNA of *Isospora belli*, 114 (BS)

Journal-based learning, 55, 132, 235

L-Selectin
CD54 and CD62L expression by lymphoid cells in acute lymphoblastic leukaemia in children, 149 (OA)
Leishmania donovani
Antigenaemia and antibody response to *Leishmania donovani* stage-specific antigens and rk39 antigen in human immunodeficiency virus-infected patients, 210 (OA)
Leukaemia, lymphocytic, acute
CD54 and CD62L expression by lymphoid cells in acute lymphoblastic leukaemia in children, 149 (OA)
Lipaemia
Lipaemia: an overrated interference?, 141 (OA)
Lipoprotein lipase
Genetics of the lipoprotein lipase gene and hypertriglyceridaemia, 84 (OA)
Liver diseases
Guanosine deaminase in human serum and tissue extracts – a reappraisal of the products, 197 (OA)

Mastalex-MRSA latex agglutination
Screening for methicillin resistance in *Staphylococcus aureus* and coagulase-negative staphylococci: an evaluation of three selective media and Mastalex-MRSA latex agglutination, 71 (OA)
Mastascan Elite image analysis
Evaluation of the mastascanelite image analysis system for measuring zones of inhibition in disc diffusion susceptibility tests, 133 (OA)
Mastascan Elite urine screen
Screening for urinary tract infection with the Mastascan Elite, 75 (OA)
Matrix metalloproteinases
Expression profile of trophoblast invasion-associated genes in the pre-eclamptic placenta, 97 (OA)
Mauritius
Prevalence of HLA-B27 among donors and recipients for renal and bone marrow transplantation in Mauritius, 221 (OA)
Meningococcal infection
Irish strains of *Neisseria meningitidis*: characterisation using multilocus sequence typing, 204 (OA)
Low incidence of *Neisseria meningitidis* serogroups B and C in lower respiratory tract secretions in patients with cystic fibrosis, 233 (L)
Methicillin resistance
Screening for methicillin resistance in *Staphylococcus aureus* and coagulase-negative staphylococci: an evaluation of three selective media and Mastalex-MRSA latex agglutination, 71 (OA)
Methotrexate
Reduced folate carrier: biochemistry and molecular biology of the normal and methotrexate-resistant cell, 117 (BE)

Mucins
Is sybtyping of intestinal metaplasia in the upper gastrointestinal tract a worthwhile exercise? An evaluation of current mucin histochemical stains, 180 (OA)

Neisseria meningitidis
Irish strains of *Neisseria meningitidis*: characterisation using multilocus sequence typing, 204 (OA)
Low incidence of *Neisseria meningitidis* serogroups B and C in lower respiratory tract secretions in patients with cystic fibrosis, 233 (L)
Nitric oxide
Effect of long-term irbesartan treatment on endothelium-dependent vasodilation in essential hypertensive patients, 191 (OA)
Impaired nitric oxide production, brachial artery reactivity and fish oil in offspring of ischaemic heart disease patients, 144 (OA)

Omani honey
In vitro antibacterial activity of Omani and African honey, 1 (OA)

Plasmodium berghei
In vivo antimalarial activity of *Vernonia amygdalina*, 89 (OA)
Platelet transfusion
Pathogen inactivation of platelet concentrates and fresh frozen plasma, 227 (BE)
Pre-eclampsia
Expression profile of trophoblast invasion-associated genes in the pre-eclamptic placenta, 97 (OA)
Precancerous conditions
Is sybtyping of intestinal metaplasia in the upper gastrointestinal tract a worthwhile exercise? An evaluation of current mucin histochemical stains, 180 (OA)
Use of *Helicobacter pylori*-specific antibodies in the evaluation of intestinal metaplasia and gastric dysplasia, 175 (OA)
Proinsulin
Secondary sulphonylurea failure: what pathogenesis is responsible?, 9 (OA)
Protein C
Screening for thrombophilia: a laboratory perspective, 39 (RA)
Protein S
Screening for thrombophilia: a laboratory perspective, 39 (RA)
Prothrombin
Bland-Altman difference plot, 131 (L)
Pseudomonas aeruginosa
Extraction of genomic DNA from *Pseudomonas aeruginosa*: a comparison of three methods, 34 (BS)
Purine-nucleoside phosphorylase
Guanosine deaminase in human serum and tissue extracts – a reappraisal of the products, 197 (OA)

Quinoline yellow
Synthetic organic hard capsule colouring agents: *in vitro* effect on human true and pseudo-cholinesterases – corrigendum, 52

ß$_2$-glycoprotein I
Enzyme-linked immunosorbent assay for ß2-glycoprotein I quantitation: the importance of variability in the plastic support, 165 (BS)
Saccharomyces cerevisiae
Gene expression study of *Saccharomyces cerevisiae* with the Agilent 2100 bioanalyser, 22 (OA)
Salmonella spp.
ABC chromogenic agar: a cost-effective alternative to standard enteric media for *Salmonella* spp. isolation from routine stool samples, 187 (OA)
Staphylococcus aureus
In vitro antibacterial activity of Omani and African honey, 1 (OA)
Screening for methicillin resistance in *Staphylococcus aureus* and coagulase-negative staphylococci: an evaluation of three selective media and Mastalex-MRSA latex agglutination, 71 (OA)
Staphylococcus lugdunensis
Infective discitis due to *Staphylococcus lugdunensis* – a case of missed opportunity, 162
Streptococcus
Streptococcus grouping latex kits: evaluation of five commercially available examples, 136 (OA)
Sulphonylurea compounds
Secondary sulphonylurea failure: what pathogenesis is responsible?, 9 (OA)
Sunset yellow
Synthetic organic hard capsule colouring agents: *in vitro* effect on human true and pseudo-cholinesterases – corrigendum, 52

Thermophilic campylobacter
Biochemical isolation and identification of DnaK and GroEL from urease-positive thermophilic campylobacters, 26 (BS)
Phenotypic diversity of campylobacter isolates from sporadic cases of human enteritis in Northern Ireland, 28 (BS)
Thrombophilia
Screening for thrombophilia: a laboratory perspective, 39 (RA)
Toxoplasma gondii
Toxoplasma gondii from liquid nitrogen for continuous cell culture: methods to maximise efficient retrieval, 217 (OA)
Toxoplasma immunity
Strategies for detecting toxoplasma immunity, 105 (OA)
Transglutaminase
Anti-transglutaminase antibodies and the serological diagnosis of coeliac disease, 14 (OA)
Triglycerides
Lipaemia: an overrated interference?, 141 (OA)
Trophozoites
Detection of *Dientamoeba fragilis* by culture, 79 (OA)
TypA in pathogenic bacteria
TypA is a virulence regulator and is present in many pathogenic bacteria, 168 (BS)
Tyrosine phosphorylation
TypA is a virulence regulator and is present in many pathogenic bacteria, 168 (BS)

Urinary tract infection
Screening for urinary tract infection with the Mastascan Elite, 75 (OA)

Vegetable-transmitted disease
Cyclospora cayetanensis infection: vegetables and water as possible vehicles for its transmission in Lagos, Nigeria, 113 (BS)
Vernonia amygdalina
In vivo antimalarial activity of *Vernonia amygdalina*, 89 (OA)
Visceral leishmaniasis
Antigenaemia and antibody response to *Leishmania donovani* stage-specific antigens and rk39 antigen in human immunodeficiency virus-infected patients, 210 (OA)
Vitamin E
Vitamin E prevents extensive lipid peroxidation in patients with hypertension, 5 (OA)
von Willebrand factor
Oxidised and native low-density lipoproteins induce the release of von Willebrand factor from human endothelial cells *in vitro*, 155 (OA)

Waterborne disease
Cyclospora cayetanensis infection: vegetables and water as possible vehicles for its transmission in Lagos, Nigeria, 113 (BS)
